

# An expert in the field of finance reveals his proven trading system.

As a trading coach and financial advisor, Bennett McDowell has used his own proprietary trading system--Applied Reality Trading or ART to enhance the performance of his clients' portfolios. Now McDowell outlines the unique benefits of his system and makes the case for trading the reality--not the fantasy--of financial markets. Readers will discover the importance of simplicity in a trading approach; how to develop "The Trader's Mindset;" how to use ART(r) technical analysis software; and much more. *The ART of Trading* will enlighten readers in how to use reality to enrich both their financial portfolio and their own financial psychology.

Not adhering to a sound money management program can expose a trader to unnecessary risk, and possibly destroy their account. A few essential money management techniques can make a big difference to the bottom line. In *A Trader's Money Management System*, author Bennett McDowell introduces readers to the most important elements of money management in trading. Topics covered throughout this book include how to design a program to get maximum profit from a trading system; how to calculate the best trade size on every trade; how to analyze profit/loss results and identify weaknesses in a strategy; plus much more. Along the way, McDowell also addresses the importance of risk control and stop loss exits. The book also includes a one-month free trial of the Trade Size Calculator software.
